

MAULANA ABUL KALAM AZAD UNIVERSITY OF TECHNOLOGY, WEST BENGAL

Paper Code : PEC-CS701B/PEC-IT701C/PECCSD702D/PECD701B Cloud Computing

UPID : 007553

Time Allotted : 3 Hours

Full Marks : 70

The Figures in the margin indicate full marks.

Candidate are required to give their answers in their own words as far as practicable

Group-A (Very Short Answer Type Question)

1. Answer any ten of the following :

[1 x 10 = 10]

- (I) What are Hypervisors?
- (II) What type of computing network is used in cloud computing?
- (III) Data stored in an SQL Azure database is accessed using the _____ protocol.
- (IV) What is Microsoft Azure?
- (V) What are the various service models in cloud computing.
- (VI) What are cloud storage levels?
- (VII) In Cloud platform IDaaS stands for _____
- (VIII) What is the role of identity management in data protection in cloud system?
- (IX) What is hybrid cloud?
- (X) What are the hardware resources available in IaaS?
- (XI) Salesforce.com is a _____ platform and it is known as _____ Relationship Management software.
- (XII) Write names of the two key mechanisms for protecting data in the cloud.

Group-B (Short Answer Type Question)

Answer any three of the following :

[5 x 3 = 15]

2. Write the differences of the SaaS and PaaS cloud computing. [5]
3. Explain Dark Web and Deep Web with proper example. [5]
4. Discuss the cloud reference model, Draw a picture. [5]
5. What factors need to be analyzed for securing a cloud computing system? [5]
6. Write short notes on Compliance as a Service (CaaS). [5]

Group-C (Long Answer Type Question)

Answer any three of the following :

[15 x 3 = 45]

7. Discuss various deployment models and service models in cloud computing with proper example. [15]
8. (a) What are the different categories of services offered in PaaS? [5]
(b) Describe various services offered on salesforce.com and force.com, and differentiate them. [6]
(c) Write about the utilities of Drupal Framework. [4]
9. (a) What is the role of virtualization in cloud computing service architecture? [5]
(b) Mention the types of virtualization techniques used in cloud computing. [5]
(c) Write the name of all mobility patterns in cloud virtualization techniques. [5]
10. (a) What is Service Oriented Architecture (SOA)? [5]
(b) For an SOA discuss the protocol stack and show the relationship of each protocol to its function. [10]
